	6 Swim - 1500m	7 Cycle - 45min (Easy)	8 Swim - 1300m Run Easy - 3km	9 REST DAY	10 Cycle - 20min Run - 10min	11 RACE DAY!!	12

This 8-week training plan is suited to helping a newbie finish their very first XTERRA Rotorua Short Course Triathlon.

- To start this training plan, it is recommended that you have trained 2-4 hours per week for the past 6 weeks prior.
- There are 8 training sessions per week with an average training volume of 4 to 7 hours per week.
- Prior to commencing, please ensure you are in good physical health and have had your mountain bike serviced - always wear a helmet on the bike!

Training Notes:

Pool Swimming - incorporate swim drills & intervals.

- swapping for the occasional lake swim would be a great way to practice your sighting skills as well as your ability to swim continuously.

Cycling - depending on accessibility to trails, the assumption is that you will predominantly ride on the road. When you have the opportunity to ride on trail, do so.

- the more you ride on the actual course the better.

- speed: incorporate 2-4 lots of 5min efforts in the middle of the ride.

- hills: go hard on every hill ascent and practice descending too, especially on the trails.

- weekend cycle: is at a slower pace, this is your endurance ride.

Running - trail is best due to its technical aspect.

- hills: option is either an undulating course or hill repeats with easy running pre and post.

- intervals: incorporate a fartlek set in the middle such as 3-2-1 min of effort with 1min recovery between each effort.

- Saturday run is directly after the cycle to get the legs accustomed to running off the bike.

- Sunday run: is at a slow pace, this is your endurance run.

MTB Course Reccie:

Not sure whether the XTERRA Short Course is for you? Download a copy of the course map to your phone and ride the course. This will give you a good idea as to the commitment you require to train, and ultimately complete this course. If you feel there are sections that are beyond your ability, do not despair – the more you ride the course the better you become. You may even want to consider signing up for a 1-on-1 session to work on technical skills – a lifelong investment toward your enjoyment of mountain biking.

Two Weeks Out:

Two weeks from race day and the course is freshly marked. This allows you to ride the course with a better flow and without the worry of missing a turn. This times well with the peak of your training load so a good time to head to Rotorua for a weekend of fun training!

Race Simulation:

One week out from race day, train on the fully marked course with conditions as close to race day.

Our Environment:

The lakes and oceans we swim in and the trails we ride and run on are becoming fragile. This is our playground and we need to care for it. If you see any rubbish along the way, please pick it up. The rest of us will appreciate it.

Training And Competing With A Purpose:

If you have a particular goal in mind and require a more personalised approach to your training or plant-based nutrition, then please feel free to contact **Kaitiaki Endurance Sports'** XTERRA-certified coach **Ben** at benjamin@eitelberg.com. Make sure you head over to www.kaitiakiendurancesports.com for more information about how we can help you achieve your sporting goals, and to learn more about the action steps you can take as an athlete every time you head out to train, and compete.
